

Level 3 Results

With further significant changes in all Level 3 qualifications, we are delighted with our students' results this year. The Academy has improved its performance in academic qualifications with nearly all subjects gaining a 100% pass rate. We are also delighted with our Applied Science grades with students securing the highest possible grade of Distinction star. This is continued evidence of the dedication and expertise of our staffing body.

Our students are moving onto a range of destinations having already secured employment, apprenticeship or university placements. We are delighted that all students wishing to advance to university have secured a place for the start of the new academic year, with nearly 50% of our cohort choosing to continue onto university. Students will be attending a range of institutions, with the majority moving on to our sponsor, Canterbury Christ Church University. We have been very pleased to have been supported with sixth form mentoring by CCCU which has undoubtedly contributed to our students' success.
