

The Red Box Project

A simple scheme, made with love for the young women in our community

Dover Christ Church Academy are supporting this project

Introducing The Red Box Project.

We aim to quietly ensure that no young woman misses school or suffers embarrassment because she has her period.

We know that schools already do what they can in this area. We want to step up as a community to give you the peace of mind that your stocks will never run out and enable you to support disadvantaged young women throughout their period.

The Red Box Project gives young women in need - whether for financial or social reasons - the reassurance of enough sanitary pads for their entire period plus a couple left over for next time. This is what makes it special.

We sponsor and stock a red box filled with sanitary towels and spare pants. The box is kept with the school Nurse, at Reception or with an appropriate member of staff.
